PROJECTS

Portfolio Website
- Showcasing my passion for web development through visually stunning designs and interactive elements coded with **HTML**, **CSS**, and **JavaScript**.
- Presented in an aesthetically pleasing format, discover comprehensive details about myself along with additional captivating information.

To-Do List
- Developed a FULL-STACK To-Do List Website using **REACT, MongoDB, EXPRESS**, and **NODE.JS**, integrating **CRUD** operations and authentication features.
- Leveraged modern **JavaScript** techniques for responsiveness, scalability, and reliability, ensuring a seamless user experience.

Twitter Clone
- Developed a full-stack Twitter clone website leveraging React for frontend UI/UX and Express with Node.js for backend implementation, ensuring seamless user interaction and responsiveness.
- Integrated Firebase and MongoDB for real-time data storage and retrieval, optimizing the performance and scalability of the platform for handling large volumesof user-generated content.
- Implemented secure user authentication using **JSON Web Tokens (JWT),** enhancing the platform's security measures and ensuring user privacy and data integrity.
